

## WHY SHOULD CUSTOMERS CONSIDER LEASING SUBNETS FROM FREEDOMTECH?

**1. Cost savings:** Leasing subnets allows you to avoid the upfront cost of purchasing and managing your own network infrastructure. Instead, you can pay a lease fee which can be more cost-effective. Leasing subnets also eliminates the need for ongoing maintenance and upgrade expenses.

**2. Flexibility and scalability:** Leasing subnets from Freedomtech provides flexibility to adjust your network resources as needed. You can easily increase or decrease your subnet allocation based on your business requirements and avoid overpaying for unused resources. This scalability allows you to adapt to changing demands and efficiently manage your network infrastructure.

**3. Freedomtech expert support and management:** When leasing subnets from us, you can benefit from our expertise and resources. We handle the geolocation, RKPI, ROA, LOA. You can focus on your core business operations while relying on our technical support.

**4. Quick deployment:** Setting up your own network infrastructure can be time-consuming and complex. Leasing subnets from Freedomtech provides a faster deployment option. We have already established the necessary infrastructure and connections, allowing you to quickly get your network up and running without delays.

Ultimately, leasing subnets can offer cost savings, flexibility, scalability, expert support and quick deployment.
